

REMARKS

The cover (title) page and page 1 of the originally filed application did not agree as to title. This inadvertent error was not caught at the time of filing of the Application on October 2, 2003, nor was it noticed when a Request for a Corrected Filing Receipt was submitted on February 12, 2004.

Copies of the Declaration, Assignment, and cover page (title) of the application are attached showing that the title, as corrected above, was the title used on all such documents/sheets.

Applicant believes that incorporation of the above amendment does not present new subject matter, and that the application is believed to be in condition for allowance.

Respectfully submitted,

Dated: 3/16/04
